

Foam Factory Acoustic Foam Comparison 2011

Contents

Wedge Foam

The most popular acoustic foam, our wedge foam outperforms and outlasts the competition at affordable pricing. Because our foam is machine cut, you can expect it to be nearly identical, side to side. Wedge foam provides outstanding sound absorption qualities, a professional appearance and minimal installation effort.

1 Inch Wedge	1
2 Inch Wedge	1
3 Inch Wedge	2
4 Inch Wedge	2

Pyramid Foam

Pyramid foam is a long-lasting, high-performance solution to your sound-deadening needs at an affordable price. Pyramid foam's unique design offers slightly different performance characteristics than other cuts, with its greater surface area.

2 Inch Pyramid	3
4 Inch Pyramid	3

Bass and Broadband Absorbers

These bass traps work in rooms of any size and work great as general sound absorbers.

Corner Bass Absorbers	4
Male Broadband Absorbers	5
Female Broadband Absorbers	5

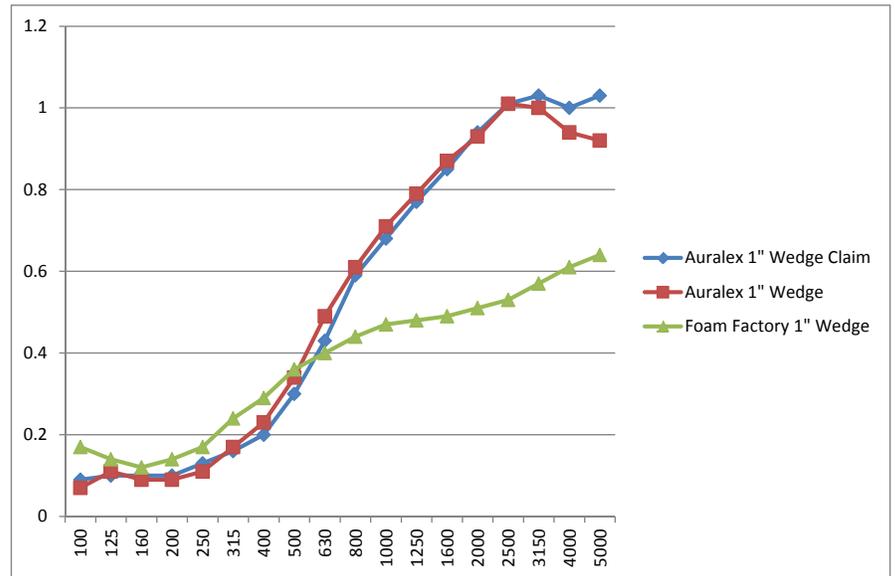

Eggcrate Foam

Eggcrate acoustic foam is great for people who want a product with great sound-deadening qualities at a budget-conscious price. Eggcrate foam's style keeps its price low, yet still allows it to absorb sound very well.
